## Easy dry & style for shiny looks

Ionic care for a beautiful, shiny hair

Dry & style at once - the new Philips Essential Care airstyler allows you to dry and style your hair at once, whilst providing maximum care to your hair. Its 3 attachments really work, making it easy to create beautiful natural styles.

### Beautifully styled hair

- 800W styling power for beautiful results
- 38mm thermo brush to smoothen your hair
- Retractable bristle brush for easy curling
- Narrow concentrator for focused airflow
- Three flexible heat and speed settings for more control

### Prevent damage

- More care with ion conditioning for shiny, frizz-free hair
- Best drying temperature with ThermoProtect temperature
- Cool air setting for extra gentle drying

### Easy to use

- Swivel cord to prevent tangled wires
- 2 years of worldwide guarantee
- 1.8 m cord for maximum flexibility
- Easy storage hook for convenient storage

# PHILIPS

# Highlights

## Shine and condition

Ionic conditioning makes it possible to dry hair without static. Charged negative ions eliminate static hair, condition and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth, frizz-free hair that shines beautifully.

## ThermoProtect temperature

The ThermoProtect temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

## 800W

This 800W airstyler creates the optimum level of airflow and gentle drying power, for beautiful results every day.

## 38mm thermo brush

The thermo brush has an extra wide diameter of 38mm. The width of the barrel makes it the perfect styling tool for creating smooth styles and waves.

## Retractable bristle brush

This easy to use airstyler is both a styling brush and curler in one. The bristles retract into the brush at the touch of a button, so you can easily slide the styler out of your hair. What's left is a beautiful bouncy curl.

## Narrow concentrator

The concentrator of the hair dryer works by focusing the flow of air through the opening onto specific areas. This results in precise styling and is great for touch ups or to finish a hair style.

## Cool air setting

A cool air setting allows you to dry hair at relatively low temperature to minimize damage, which is suitable for especially fine, dry and damaged hair. And it is a perfect setting for the hot summer season!

## Swivel cord

Useful swivel cord technology rotates the cord to prevent tangled wires.

## Three flexible settings

The speed and heat required can be easily adjusted to create the perfect end result. Three flexible settings ensure precise and tailored styling.

## Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO2 emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

# Specifications

## Attachments

- 38mm Thermobrush: For smoothing and for waves
- Nozzle: For a focused airflow
- Retractable bristle brush: For waves and root volume

## Power

- Voltage: 220-240V
- Wattage: 800W

## Caring technologies

- Ion technology
- Thermoprotect

## Ease of use

- Storage hook
- Swivel cord
